*All stats have been compiled using only UK or IRISH form, races run abroad are not factored in (both when compiling the stats and when looking to see who fits the trends this year)*

*Only renewals that are the same level as current renewal have been used (for example only the last 12 Bowl Chase's have been at G1 level so only the last 12 renewals have been used to compile the stats)*

*Sometimes more recent renewals have been used (i.e. the last 10 instead of last 15) if I feel the race has changed in complexion in more recent renewals*
