Introduction

NTF 2023/24: Last Time Out Winners at the Cheltenham Festival...

Welcome to the second **FREE Narrowing The Field (NTF)** guide for the **2024 CHELTENHAM FESTIVAL...**

In this report I'm looking at how **Last Time Out Winners (LTOW)** perform at the Cheltenham Festival, using the last 10 Festival's to source the data...

This is a straightforward method to follow/report on and it doesn't need much explaining... but it's well worth delving into... it can be easy for us punters to ignore the obvious (a horse that is coming into the meeting in winning form) and get distracted by looking for something 'less obvious', in our never-ending search for 'value'...

As you will see in this guide, however, there *is* profit to be made from concentrating on those horses that come into the Cheltenham Festival with a big juicy **1** beside their name...

As is always the case with an NTF guide, it is entirely up to yourself how you wish to utilise the information and how you wish to add it to your own punting methods...

Happy Festival Punting

**Stats taken from the last 10 Cheltenham Festivals*

CHELTENHAM FESTIVAL LTOW'S

There have been 278 races at the last ten Cheltenham Festivals (so 278 winners, obviously!)

146 of those 278 winners WON Last Time Out

Meaning...

53% of the races at the last ten Cheltenham Festivals were won by LTO Winners

Overall LTOW Stats

146/1484 | 10% S/R | -£155.45 BFLSP - W&P 388/1484 | 26% S/R

14% below exp | E/W returns = -£704.99

Overall, we can't just back horses that won last time out as it would have left a gapping hole in our betting banks to the tune of -£155.45... and an even bigger hole had we decided to play them all Each-Way...

No massive surprises there at all but it's good to see the overall stats and build an early picture...

As is generally the case we need to dig a bit for the profitable areas... so let's get started...

146% above exp | E/W returns = +£59.68

LTOW Track Conclusion...

Horse's that won at an Irish track last time out have, unsurprisingly, bagged a hefty number of winners, especially when you zone in on those that won at **Leopardstown** or **Naas** last time out (and that win came at least 26- days ago)...

Horse's that won at **Cheltenham** last time out (ANY Cheltenham meeting) have proven profitable to follow, even more so when you concentrate on those aged 4yo to 7yo and were Irish or French bred...
